INTRODUCTION

Idaho Code §33-1708 states in part: Annually, not later than the first day of September, the state superintendent of public instruction shall cause the supervisor of driver training to prepare a report showing the actual expenses incurred in administering and supervising the driver training program during the preceding fiscal year ending June 30.

IDAPA 08.02.02.240.01, Section 5.1. Report of Students Enrolled. (Commercial) Schools must submit to the Department of Education a report that includes the total number of students enrolled, passed, failed, and withdrawn during the previous fiscal year between July 1 and June 30. The report must be submitted by August 1 of each year.

This report provides an overview of the Idaho Driver Education and Training Program and costs incurred by school districts offering driver education during the Fiscal Year 2008 (July 1, 2006-June 30, 2007); includes teen driver education enrollment for private (commercial) driving schools; the number of collisions involving driver education vehicles, program enhancements, and achievements for FY2008.

PROGRAM GOALS

Identifies goals met for the previous year and for the goals for the next fiscal year.

PUBLIC SCHOOLS STATISTICAL PICTURE

This report summarizes student enrollment, expenditures, and reimbursements from the state.

PUBLIC SCHOOLS FINANCIAL SUMMARY

This report summarizes the Controller's fund balance, monthly receipts, administrative and training costs and reimbursement payments to school districts made by the State Department of Education.

INDIVIDUAL DISTRICT REPORTS

Four tables show, by district, the annual student enrollments, operating expenses, reimbursements, and teachers' hourly salary rates. One table groups districts of similar size and indicates the number of students enrolled therein.

DRIVER EDUCATION SUMMARY

Enrolled Teen Driver Students

One hundred-one (101) public school districts reported claims for reimbursement for teen driver education and training during Fiscal Year 2008 (July 1 – June 30). Idaho's public schools were reimbursed for 9,862 students, 3,018 (23%) less than in FY 2007. 230 (2.3%) of the enrolled students failed. Not all students trained during this fiscal year are shown on this report because summer courses extending into the next fiscal year result in reimbursement to districts the following September (the next fiscal year).

Forty-eight (48) private driving schools offered driver education and training in 2008; six (6) more than in 2007. 7,090 teen students were reported trained, an increase of 795 students from 2007. One (1) private schools did not report their numbers before the August 1st deadline and nine (9) were late reporting their numbers.

Public Schools Financial Overview

The total districts' cost for operating the public school driver education program for FY2008 was \$2,596,695.51 (\$799,321 less than FY07). Of that amount, students paid \$1,122,120.28 in fees and after deducting student fees, school districts were reimbursed \$1,176,962.68.

The average district cost per student was \$265.36. The average adjusted cost after deducting student fees was \$149.76. The average state reimbursement was \$120.28 per student.

The average student fee decreased from \$111.21 to \$102.55.

Instructor wages increased from an average of \$17.90/hour to \$18.72/hour and accounted for 59% of total district costs of running a driver education program.

Vehicle costs accounted for 22.5% of total costs.

Crashes

Fourteen (14) crashes involving driver education vehicles were reported during FY2008, up one (1) from FY2007. Six (6) of these were not the fault of the student driver but other drivers who failed to yield. One driver education car hit a cone, one hit a fence, one got hit from behind after missing a stop sign and then stopping quickly, one got hit in a turnabout, one ended up upside down after sliding off the road on ice, one hit the gas instead of the brake, and one hit the car in front of them at a stop sign.

Instructors

During FY2007 there were two hundred seventy-five (275) active public school driver education instructors and one hundred three (103) active private driving school instructors.

Four teacher certification classes were offered in 2008, including two online courses.

Workshops and Professional Development for Teachers

During FY2008, nine (9) driver education workshops were conducted between February and May in the six regions of the state: two workshops in Boise and Idaho Falls, one in Coeur d'Alene, Lewiston, Nampa, Pocatello, and Twin Falls.

In January, Dave Eiguren offered a workshop worth 8 professional development hours.

In the spring, Mike Ryals offered a workshop worth 8 professional development hours.

Centerline

During FY 2008 the department continued its regular publication of the newsletter for driver education instructors, administrators, owners and superintendents. The newsletter provides instructors with communications from the department and provides a place for teachers to share information from their individual programs.

To save money this publication is now sent out electronically. There are a few individuals who have requested to continue receiving hard copies. The summer edition is sent out to all street addresses when teachers are not at school.

FY 2008 Goals for Idaho's Driver Education Program

In FY 2008 the goals of the driver education division were to:

1. Complete the curriculum for Idaho's driver education and training program.
COMPLETED
2. Provide the finished curriculum on CD to every Idaho Driver Education instructor, both public and commercial, at state conferences, by mail, and on the web.
COMPLETED
3. Post all forms, manuals, reports, newsletters, workshop information, certification courses, and anything else required and/or useful to parents, students, and instructors, on the web site.
COMPLETED
4. Establish positive and supportive communication and relationships with instructors, coordinators, and commercial companies throughout the state.
COMPLETED/ONGOING
5. Improve the methods and tools for keeping driver education records.
ONGOING. Creating our own databases and spreadsheets instead of using Foxpro and paying for support and changes.
6. Create a useful in-car/supervised driving manual for trainers and parents that meets state standards.
COMPLETED
7. Create a useful classroom instruction guide for teachers that meets state standards and summarizes the full curriculum (see goal #1).
COMPLETED/PART OF CURRICULUM GUIDE

FY 2009 Goals for Idaho's Driver Education Program

1. Offer professional development workshops online as monthly, one-hour webinars.
2. Update curriculum to include multimedia audio/video, including local instructors.
3. Begin an annual contest for students to submit essays, photos, and videos.
4. Complete a database for instructors that will replace our existing database that is difficult to use and inconsistent.
5. Complete a spreadsheet for financials that will replace our existing financial reporting program that is difficult to use and inconsistent.
6. Submit new operating procedures for all driver education programs to the state board of education for approval.
7. Get more teachers to use driving simulator(s) as supplemental instruction.
8. Help public schools teach more Driver Education students than they did last year.
